Subject: Gigafast Inc., FCC ID: UMZPE816GAP, Assessment NO.: AN06T6249, Notice#1

Question #1: Please resubmit Agency authorization letter from Gigafast.

Ans: Please have the POA again. Thank you.

Question #2: The schematic diagram does not include RTL8086, as specified in the operational description. Please resubmit schematic diagram to include RF circuitry.

Ans: Please see the attachment.

Question #3: As user manual indicated, EUT is a Homeplug WLAN Ethernet bridge with RJ45 port and power connector at the back of the EUT. Please provide additional external photos to show the RJ45 port and power connector.

Ans: The EUT doesn't have RJ45 port and the user manual had been revised.

Question #4: If item #4 is true, the digital portion of the EUT is subject to DoC or certification. Please add FCC DoC logo on the FCC ID label format if the digital portion is authorized through DoC,

otherwise, please submit a separate filing under equipment class "JBP".

Ans: So the FCC DoC logo doesn't added on the FCC ID label.

Best Regards,  
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
